

N/a	Name of service	Service price (RUB)
	Department of Radiation Diagnostics	
1	R-group of the organs of the chest in the 1st projection	360
2	R-group of the organs of the chest in 2 projections	635
3	P-gr of abdominal organs	530
4	R-gr. Skull in 2 projections	340
5	R-group of large joints (hip and knee)	360
6	R-group of small joints (ankles, hands and feet)	330
7	R-graphy of the spine in 2 projections	365
8	Tooth radiograph	190
9	FLH prophylactic	220
10	FLH diagnostic	360
11	FLG of the paranasal sinuses	250
12	FLG of the cervical spine	485
13	FLG ribs	485
14	R-graphy of the cervical spine in 2 pr. With functional tests	610
15	R-graphy of the lumbar spine in 2 pr. With functional tests	610
16	R-graph of the paranasal sinuses and sella turcica	360
	Clinical diagnostic laboratory	
	Hematological examinations	
17	Blood test ESR, leukocytes, hemoglobin	160
18	General (clinical) blood test	260
19	General (clinical) blood test detailed	320
20	Platelet count	150
21	Malaria blood test	195
22	Reticulocyte count	165
23	Determination of blood clotting time according to Sukharev	100
24	Hemoglobin in the blood	80
25	Leukocytes in the blood	95
26	Erythrocyte sedimentation rate	75
27	Determination of blood clotting rate	95
	Urine examination	
28	General urine analysis with sediment microscopy	160
29	Urine analysis according to Nechiporenko	120
30	Urine analysis according to Zimnitsky	110
31	Sugar in urine	75
32	Protein in urine	110
33	Analysis of urine for diastasis	60
34	Bile pigments in urine	50
35	Rehberg test	130
36	Determination of specific gravity in urine	45
	Stool examination	
37	Stool analysis for helminth eggs	120
38	Stool analysis for enterobiasis	90
39	Scatological examination	160
40	Fecal occult blood test	50

	Sputum examination	
41	Clinical analysis of sputum	110
	Other research	
42	Analysis of a smear for Trichomonas and gonococci	170
43	Study of the juice of the prostate gland	150
44	Analysis of a vaginal smear for acidity (Ph)	45
45	Semen examination	450
46	Extracting copies of analyzes	40
	Cytological studies	
47	Smear analysis for oncocytology	280
48	Diagnostic cytological examination	400
	Serological tests	
49	Lipid spectrum	615
50	Determination of total serum protein	115
51	Determination of protein fractions in blood serum	400
52	Determination of the activity of aspartate aminotransferase (AST)	130
53	Determination of the activity of alanine aminotransferase (ALT)	130
54	Determination of alkaline phosphatase activity	270
55	Determination of Alpha-Amylase Activity	145
56	Determined gamma-GTP (glutamyl transpeptitase)	120
57	Determination of creatine kinase activity	145
58	Determination of bilirubin in blood serum	130
59	Determination of uric acid in blood serum	160
60	Blood urea	115
61	Determination of lactate dehydrogenesis (LDH)	210
62	Determination of glycated hemoglobin	485
63	Determination of blood group	160
64	Determination of the Rh factor in venous blood	180
65	determination of rhesus antibodies	390
66	determination of antibodies by the ABO system	170
67	Creatinine	135
68	Microreaction of precipitation	170
69	Determination of glucose in blood serum	170
70	Determination of total cholesterol	115
71	Blood test for C - reactive protein	120
72	Determination of triglycerides	300
73	Diagnosis of hepatitis B: detection of HBsAg in serum (plasma) blood	265
74	Diagnostics of hepatitis C: detection of immunoglobulins of classes G and M to hepatitis C virus	285
75	Detection of total antibodies to the causative agent of syphilis	295
76	Detection of class G immunoglobulin antibodies to the causative agent of syphilis	245
77	Detection of class M immunoglobulin antibodies to the causative agent of syphilis	225
78	Determination of the concentration of thyroid-stimulating hormone (TSH) in the serum (plasma) of blood	260
79	Determination of the concentration of antibodies to thyroperoxidase in blood serum	295

80	Determination of the concentration of the free fraction of thyroxine in the blood serum	295
81	Determination of the concentration of total prostate-specific antigen (PSA) in blood serum	330
82	Determination of serum alpha-fetoprotein (AFP)	240
83	Determination of cancer embryonic antigen in blood serum (CEA)	210
84	Determination of Ca 19-9 content in blood serum	305
85	Determination of cancer antigen Ca 15-3 in blood serum	310
86	Determination of the content of beta-chorionic gonadotropin (β -hCG) in blood serum	340
87	Determination of the content of human chorionic gonadotropin in blood serum	295
88	Determination of serum cortisol	310
89	Determination of dehydroepiandrosterone (DHEA-S) in blood serum	320
90	Determination of triiodothyronine (cT3) in blood serum	320
91	Determination of follicle-stimulating hormone (FSH)	320
92	Determination of serum 17L-hydroxyprogesterone (17 OHP)	350
93	Determination of luteinizing hormone (LH) in blood serum	320
94	Determination of prolactin	325
95	Determination of progesterone	325
96	Determination of estradiol	370
97	Determination of testosterone	330
98	Determination of free estriol (E3)	320
99	Determination of trophobolpastic β -1-glycoprotein (TBG)	320
100	Determination of class M antibodies to cytomegalovirus in blood serum	260
101	Determination of antibodies of class JI to cytomegalovirus in blood serum	260
102	Determination of class M antibodies to herpes simplex virus types 1 and 2 in blood serum	270
103	Determination of antibodies of class JI to herpes simplex virus types 1 and 2 in blood serum	260
104	Determination of class M antibodies to rubella virus in blood serum	270
105	Determination of antibodies of class JI to rubella virus in blood serum	270
106	Determination of total antibodies to the causative agent of peptic ulcer disease (<i>Helicobacter pylori</i>)	280
107	Determination of class M antibodies to chlamydia trichomatis in blood serum	255
108	Determination of antibodies of class JI to chlamydia trichomatis in blood serum	255
109	Determination of class M antibodies to toxoplasma in blood serum	260
110	Determination of antibodies of class JI to toxoplasma in blood serum	260
111	Detection of antibodies to human immunodeficiency viruses	285
112	Determination of antistreptolysin-O	450
113	Research on rheumatoid factors	480
114	Study of the level of alpha-lipoproteins (high density) in the blood	170
115	Prothrombin	130
116	Study of the level of fibrinogen in the blood	120

117	Determination of prothrombin (thromboplastin) time in blood or plasma	170
118	Determination of thrombin time in blood	145
119	Study of the plasmin (fibrinolytic) system	300
120	Activated partial thromboplastin time (APTT)	300
121	International normalized ratio	160
122	Study of the level of antithrombin III in the blood	245
123	Determination of the concentration of D dimer by the turbodimetric method	430
124	Determination of potassium, sodium, chlorine, calcium incl. ionized by ion-selective method	415
125	Determination of class M antibodies to viral antigens (SARS CoV-2) by ELISA	380
126	Determination of class G antibodies to viral antigens (SARS CoV-2) by ELISA	380
	Physiotherapy department	
127	Consultation with the head of the physiotherapy department	170
	Cost of 1 procedure	
128	Galvanization	70
129	Iontophoresis	170
130	Diadynamic currents	90
131	CMT therapy	90
132	CMT-fores	140
133	UHF therapy	80
134	Paraffinosokeritotherapy	180
135	Ultrasound therapy	90
136	Visible light therapy	130
137	Ultraviolet irradiation	80
138	D "Arsonvalization	90
139	Vacuum massage on the "Axion" apparatus	230
140	Inhalation on the device "Boreal F 400"	90
141	Microwave therapy	70
142	Cutaneous laser therapy	50
143	Magnetotherapy	50
	Massage cost of 1 session	
144	Therapeutic head massage	50
145	Cosmetic massage of the scalp	50
146	Therapeutic facial massage	50
147	Neck muscle massage	80
148	Neck massage	110
149	Upper limb massage	110
150	Shoulder joint massage	85
151	Elbow joint massage	85
152	Massage of the wrist joint	85
153	Hand and forearm massage	85
154	Chest massage	145
155	Back massage	110
156	Anterior abdominal wall massage	85

157	Segmental lumbosacral massage	85
158	Lower limb massage	110
159	Hip joint massage	85
160	Knee massage	85
161	Foot and shin massage	85
162	General massage for children	145
163	Exercise therapy individually	200
	Outpatient and polyclinic care	
164	Manager's consultation	460
165	Initial consultation with a surgical doctor (surgeon, obstetrician-gynecologist, ophthalmologist, otorhinolaryngologist, urologist)	515
166	Repeated consultation with a surgical doctor (surgeon, obstetrician-gynecologist, ophthalmologist, otorhinolaryngologist, urologist)	240
167	Initial consultation with a therapeutic profile doctor (therapist, endocrinologist, neuropathologist, infectious disease specialist, cardiologist, gastroenterologist)	330
168	Repeated consultation with a therapeutic profile doctor (therapist, endocrinologist, neuropathologist, infectious disease specialist, cardiologist, gastroenterologist)	200
169	Initial consultation with a pediatrician	330
170	Repeated consultation with a pediatrician	220
171	Prophylactic examination by a pediatrician	275
172	Medical examination by a general practitioner	130
173	Medical examination by obstetrician-gynecologist	240
174	Neuropathologist examination	105
175	Endocrinologist examination	105
176	Otolaryngologist examination	105
177	Ophthalmologist's occupational health monitor	105
178	Cardiologist examination	105
179	Prophylactic examination by a urologist	105
180	Prophylactic examination of an infectious disease specialist	120
181	Surgeon's medical examination	120
182	Midwife examination	170
183	Dentist examination	120
184	Initial call to the house of a surgical doctor (surgeon, obstetrician-gynecologist, ophthalmologist, otorhinolaryngologist, urologist)	870
185	Repeated call to the house of a doctor of a surgical profile (surgeon, obstetrician-gynecologist, ophthalmologist, otorhinolaryngologist, urologist)	525
186	Initial call to the home of a doctor of a therapeutic profile (therapist, endocrinologist, neuropathologist, infectious disease specialist, cardiologist, pulmonologist, gastroenterologist)	535
187	Repeated call to the home of a therapeutic profile doctor (therapist, endocrinologist, neuropathologist, infectious disease specialist, cardiologist, pulmonologist, gastroenterologist)	380
188	Initial call to the home of a pediatrician	665
189	Repeated call to the home of a pediatrician	330
190	Endourethral instillation of medicinal mixtures	250
191	Cystoscopy	210

192	Instillation of the bladder	145
193	Replacement of cystostomy drainage	255
194	Bougie of the urethra	270
195	Reduction of paraphimosis	110
196	Prostate massage	220
197	puncture of the maxillary sinuses	305
198	intranasal block	155
199	behind-the-ear block	160
200	anterior nasal tamponade for bleeding	295
201	washing of sulfur plugs (1 ear)	125
202	ear toilet	115
203	turunda in the ear	50
204	removal of a foreign body of the larynx	490
205	ear foreign body removal	305
206	removal of a foreign body of the nose	240
207	laryngeal irrigation	155
208	throat lubrication	55
209	lavage of the auditory tubes (1 ear)	145
210	Lancing of a paratonsillar abscess	550
211	vibration massage	50
212	Postoperative home monitoring (1 visit)	760
213	Small surgical operations	1 400
214	Applying a plaster cast	380
215	Plastic surgery of the periungual roller	1 625
216	Primary surgical debridement	560
217	Removal of the nail plate	655
218	Cosmetic suture application	750
219	Electrocoagulation	660
220	Joint puncture	120
221	Blood pressure measurement	50
222	Measurement of growth	25
223	Body weight measurement	25
224	Determination of visual acuity	45
225	Determination of hearing acuity	25
226	Pre-trip inspection of drivers	50
227	Setting mustard plasters or compresses at home	330
228	Measurement of intraocular pressure	65
229	fundus examination	130
230	selection of glasses	105
231	removal of a foreign body from the eye	285
232	lacrimal duct lavage	205
233	Blood sampling from a vein	90
234	Blood sampling from a vein at home	155
235	Collecting urine with a catheter	160
236	Collecting throat and nose swabs	140
237	bowel lavage	140
238	gastric lavage	190

239	V / mouse injection	75
240	IV injection	115
241	In / mouse injection at home	245
242	Intravenous injection at home	290
243	Intravenous infusion of solutions and blood substitutes	260
244	Intravenous infusion of solutions and blood substitutes at home	375
245	Shuvarsky-Gunar test for biologist. Combine	170
246	Mueller test for biological compatibility	225
247	IUD insertion	530
248	Removal of the IUD (for the antennae)	315
249	Removal of IUD (crochet)	615
250	Endometrial vacuum aspiration	640
251	Polypectomy	620
252	Biopsy	625
253	Colposcopy	850
254	Biopsy of the cervix and genital neoplasms	740
255	Radiocoagulation of the cervix and external genitalia	660
256	Electromammography	295
257	Collection of material for research from the vagina	65
258	Diathermocoagulation	400
259	Cryodestruction	645
	Dental office	
260	Dentist consultation	275
261	Dentist examination	185
262	Treatment of superficial caris with cement filling.	380
263	Treatment of superficial caries with composite filling	615
264	Treatment of deep caries with cement filling.	530
265	Treatment of deep caries with composite filling	780
266	arsenic overlay	230
267	Treatment of 1-root tooth pulpitis	1 150
268	Treatment of 2-root tooth pulpitis	1 360
269	Treatment of 3-root tooth pulpitis	1 580
270	Treatment of 4-root tooth pulpitis	1 710
271	Treatment of periodontitis of 1 root tooth	1 150
272	Treatment of periodontitis of the 2nd root tooth	1 330
273	Treatment of periodontitis of the 3rd root tooth	1 660
274	Treatment of periodontitis of the 4th root tooth	1 710
275	temporary filling	290
276	Removing the seal	260
277	Carpool anesthesia	140
278	Placement of gutta-percha pins	215
279	Setting the lining material	245
280	Unfilling of one canal filled with clove paste	870
281	Unfilling of one canal filled with resorcinol-formaldehyde compound	1 160
282	Unsealing of one canal filled with phosphate-cement composition	1 350
283	Fluoride varnish coating	105
284	Tooth extraction is simple	225

285	Difficult tooth extraction	660
286	Bandaging after complex surgery	200
287	Medical treatment of canals for periodontitis	205
288	Application anesthesia	120
289	Diathermocoagulation of 1 papilla	160
290	Removal of dental plaque from 1 tooth	170
291	Silvering of 1 tooth	190
292	Complete tooth restoration	650
293	Partial tooth restoration	400
294	Excision of the hood	190
295	Imposition of 1 stitch	350
296	Periostitis treatment	270
297	Alveolitis treatment	260
298	Intrapulpal anesthesia	240
299	Fixation of the post at the root of the crown	580
300	Simple anesthesia	200
	Diagnostic department	
301	Diagnostic endoscopy	770
302	Medical endoscopy	1 250
303	Diagnostic sigmoidoscopy	765
304	Bicycle ergometry on a-those "Valenta"	1 360
305	Rheoencephalography on apparatus "Valenta"	400
306	Rheovasography on the apparatus "Valenta"	290
307	spirography on the apparatus "Valenta"	470
308	Abdominal ultrasound	780
309	Ultrasound of the liver and gallbladder	340
310	Ultrasound of the gallbladder with function determination	960
311	Pancreas ultrasound	340
312	Spleen ultrasound	340
313	Ultrasound of the genitals	480
314	Fetal ultrasound	570
315	Kidney ultrasound	340
316	Ultrasound glands with def. remainder urine	340
317	Ultrasound of the bladder with obt. remainder urine	310
318	Ultrasound of the brain of a newborn	520
319	Ultrasound of the thyroid gland	300
320	Breast ultrasound	450
321	ECG of the heart with interpretation on the apparatus "Valenta"	295
322	Ultrasound of the vessels of the upper extremities	920
323	Ultrasound of the vessels of the lower extremities	930
324	Doppler ultrasound of the great arteries of the head	940
325	Study of uteroplacental blood flow in the mode of pulsed and color Doppler mapping	765
326	Study of blood flow of renal arteries in the mode of pulsed and color Doppler mapping	765
327	Investigation of the blood flow of the abdominal aorta and its branches in the mode of pulsed and color Doppler mapping	765
328	Endoscopic polypectomy	2 460

329	Endoscopic pH meter	1 020
330	Chromoendoscopy	925
331	fetal cardiocography	180
332	Ultrasound of the heart	1 285
333	Colonoscopy	1 470
334	Ultrasound of the mediastinum (thymus)	370
335	Ultrasound of joints (children under 1 year old)	370
	Department of Anesthesiology and Reanimation	
336	consultation with an anesthesiologist	380
337	intravenous pain relief	1 105
338	Additional pain relief during labor PAP	1 420
339	Endotracheal anesthesia	3 510
340	Peridural anesthesia	2 190
341	Plasmapheresis	5 955
342	Plasmapheresis in severe cases	8 050
	Provision of medical care in the departments of the hospital for round-the-clock stay	
	Obstetric physiological department	
343	Manager's consultation	420
344	individual management of physiological childbirth	7 310
345	caesarean section	6 000
346	manual control of the uterine cavity	280
347	Episiotomy	135
348	Epizioraphy	1 265
349	Suturing of soft tissue tears with anesthesia with novocaine	1 305
350	Instrumental curettage of the uterine cavity in the postpartum period	500
351	Sterilization during caesarean section	295
352	Excision of a skin scar with plastics during a cesarean section	460
353	Cosmetic suture for caesarean section	965
354	postoperative observation (1 k / day)	1 890
	#ССЫЛКА!	
355	Manager's consultation	485
356	Neonatologist consultation during childbirth	350
357	Examination by a neonatologist	65
358	Laryngoscopy	195
359	Endotracheal intubation	195
360	Endotracheal surfactant administration	9 040
361	Umbilical vein catheterization	285
362	Bladder catheterization	315
363	Substituted blood transfusion	2 195
364	Intravenous infusion (0.5 hour)	240
365	Vaccination of a newborn	85
366	Blood sampling from a vein	85
367	Fingertip sampling	60
368	Intramuscular injection	85
369	Taking a smear from the conjunctiva	55

370	Hygienic bath	230
371	Newborn's primary toilet	370
372	Weighing a newborn	35
373	Intragastric infusion (0.5 hour)	240
374	Screening for hereditary diseases	115
375	Gastric lavage	170
376	Cleansing enema	190
377	Phototherapy (0.5 hours)	430
378	Clavicle fracture dressing	70
379	Tube feeding	165
380	Hyperbilirubinemia treatment (1 k / day)	1 590
381	Determination of bilirubin level by express method	70
	Infectious department	
382	Manager's consultation	400
	Department of pregnancy pathology	
383	Manager's consultation	485
	Day hospital for antenatal clinics	
384	Consultation with a gynecologist-endocrinologist	490
385	Local anesthesia	270
	Surgical interventions (excluding the cost of anesthesia)	
386	Separate diagnostic curettage for uterine fibroids	770
387	Diathermoexcision of the cervix	220
388	Hysteroscopy	510
	Provision of medical care in day care departments (1 bed / day)	
389	Polyclinic for adults	1 020
390	Infectious department	1 610
391	Women's consultation	1 090
	Provision of medical care in the departments of a round-the-clock hospital (1 bed / day)	
392	Infectious department	1 750
393	Department of pregnancy pathology	1 450
394	Obstetric department	2 480
395	Department of newborns	1 835
	Other services	
396	Service (household) service in the superior ward (1 bed / day)	680
